

Kamran Muhammad

English Language Instructor

Dedicated educator with practical experience teaching English conversation and digital skills across Pakistan and Japan. Currently completing graduate studies at the University of Kitakyushu as an MEXT Scholarship Student while delivering personalized English instruction to adult learners. Combines a strong technical foundation (BS Information Technology) with teaching expertise—uniquely positioned to teach Business English and IT-related English courses. I will graduate from the University of Kitakyushu in September 2026. I hold a student visa until 27 December 2026.
